WORK EXPERIENCE

Graphic Designer | Zithara **Technologies Pvt Ltd**

Jan 2025 – Feb 2026

Hyderabad, Telangana | Full-Time | AI & CRM SaaS Product Company

- ▶ Designed and delivered 50+ marketing assets including social media creatives, brochures, email banners, pitch decks, and product one-pagers that clearly communicated Zithara's AI CRM value to B2B retail clients.
- ▶ Collaborated cross-functionally with marketing, product, and sales teams on a daily basis to translate complex AI and CRM product concepts into clean, compelling, and on-brand visuals.
- ▶ Integrated generative AI tools (Adobe Firefly, Midjourney, ChatGPT) into the core design workflow, cutting concept ideation and iteration time by an estimated 40–50% and enabling faster campaign turnarounds.

- ▶ Owned and maintained Zithara's complete brand identity system — ensuring consistency across all digital touchpoints including presentations, social media, ads, and internal documents.
- ▶ Designed performance-focused ad creatives for Meta and Google campaigns, coordinating with the marketing team to meet platform specs and optimize for visual click-through.

Graphic Design Trainee | Tutorac **Academy**

Jul 2024 – Dec 2024

Hyderabad, Telangana | Full-Time Training | 6-Month Industry Program

- ▶ Completed an intensive 6-month industry-focused design program with real-time project briefs that simulated actual client work — covering strategy, design, feedback, and final delivery.
- ▶ Designed social media creatives, event posters, ad banners, and UI layout screens — building a versatile and multi-format design portfolio.
- ▶ Created responsive landing page wireframes and UI component layouts in Figma, applying visual hierarchy, grid systems, UI/UX principles, and spacing best practices.
- ▶ Introduced AI design tools (Midjourney, Adobe Firefly) into the workflow to boost creative speed, explore new visual styles, and improve the quality of final outputs.
- ▶ Developed strong client-facing communication skills through design reviews and presentations — incorporating feedback constructively and iterating quickly under tight timelines.
