Portfolio: <https://sivagopi21.github.io/Portfolio-website/>

PROFESSIONAL SUMMARY

Creative and AI-driven Graphic Designer with 1+ year of professional experience delivering high-impact visual designs for AI, SaaS, and tech brands. Expert in the full Adobe Creative Suite and Figma, with generative AI tools (Midjourney, Adobe Firefly, ChatGPT, Gemini) deeply embedded into everyday workflows — not just as add-ons, but as core creative engines. Uniquely capable of independently designing and building complete websites and high-converting landing pages using AI-powered platforms, using both hand-written HTML & CSS and AI-powered platforms. Holds a B.Tech in Electronics & Communication Engineering, giving a strong technical foundation to understand product teams, communicate with developers, and design for complex digital products. A fast learner, self-motivated, and collaborative team player who delivers quality at speed — ready to add value from day one.

KEY STRENGTHS & VALUE I BRING

- ✓ **Professional Experience:** 1+ year at Zithara Technologies — a real AI SaaS product company.
- ✓ **AI-First Design Workflow:** Uses Midjourney, Firefly, ChatGPT & Gemini daily for faster, smarter creative output
- ✓ **Web & Landing Pages:** Builds complete websites and landing pages using HTML, CSS, and AI-powered tools — independently, end to end
- ✓ **End-to-End Brand Identity:** Designs full brand systems — logos, color palettes, typography, style guides, templates
- ✓ **Volume & Delivery:** Delivered 75+ design assets across social media, web, print, ads, and presentations
- ✓ **Tech Background:** B.Tech in ECE — bridges the gap between design and tech teams effectively
- ✓ **Availability:** Immediately available — open to full-time, freelance, remote, or hybrid roles

WORK EXPERIENCE

Graphic Designer | Zithara Technologies Pvt Ltd

Jan 2025 – Feb 2026

Hyderabad, Telangana | Full-Time | AI & CRM SaaS Product Company

- ▶ Designed and delivered 50+ marketing assets including social media creatives, brochures, email banners, pitch decks, and product one-pagers that clearly communicated Zithara's AI CRM value to B2B retail clients.
- ▶ Independently built and published landing pages and websites using HTML, CSS, and AI-powered tools (Framer AI, Gamma, Relume) — handling everything from layout and code to final deployment-ready output.
- ▶ Collaborated cross-functionally with marketing, product, and sales teams on a daily basis to translate complex AI and CRM product concepts into clean, compelling, and on-brand visuals.
- ▶ Integrated generative AI tools (Adobe Firefly, Midjourney, ChatGPT) into the core design workflow, cutting concept ideation and iteration time by an estimated 40–50% and enabling faster campaign turnarounds.
- ▶ Owned and maintained Zithara's complete brand identity system — ensuring consistency across all digital touchpoints including presentations, social media, ads, and internal documents.
- ▶ Designed performance-focused ad creatives for Meta and Google campaigns, coordinating with the marketing team to meet platform specs and optimize for visual click-through.

- ▶ Completed an intensive 6-month industry-focused design program with real-time project briefs that simulated actual client work — covering strategy, design, feedback, and final delivery.
- ▶ Designed social media creatives, event posters, ad banners, and UI layout screens — building a versatile and multi-format design portfolio.
- ▶ Created responsive landing page wireframes and UI component layouts in Figma, applying visual hierarchy, grid systems, UI/UX principles, and spacing best practices.
- ▶ Introduced AI design tools (Midjourney, Adobe Firefly) into the workflow to boost creative speed, explore new visual styles, and improve the quality of final outputs.
- ▶ Developed strong client-facing communication skills through design reviews and presentations — incorporating feedback constructively and iterating quickly under tight timelines.
